## INTRODUCTION

I'm a passionate and results-driven developer with over 3 years of hands-on experience in web and mobile development. I specialize in the MERN stack (MongoDB, Express.js, React, Node.js), React Native, and Next.js. I thrive on building seamless, user-friendly digital experiences, and I'm committed to delivering high-quality, efficient solutions. My strong communication skills help me bridge the gap between technical complexities and non-technical stakeholders, ensuring smooth collaboration and successful outcomes in every project.

## EXPERIENCE

### Senior Full Stack Engineer | Bitsol Technologies | Islamabad, Pakistan | January 2024 – Present

- Collaborated with a team of 10–12 front-end developers to revamp a marketplace serving 10M+ active users, driving significant performance and UX improvements.
- Architected the front end using Next.js, MUI, and TanStack React Query, optimizing SEO and API interactions for improved performance.
- Ensured seamless API integration by collaborating with back-end teams and improving UI with intuitive designs
- Integrated Storybook for component libraries, enhancing collaboration between developers and designers.
- Automated code quality checks using Husky, lint-staged, and commit-lint for enforcing commit message conventions, improving the development workflow.
- Maintained transparent communication with the Project Manager and client, providing regular project status updates and addressing challenges proactively.

### Full Stack Developer | ShnairTech | Lahore, Pakistan | March 2023 – December 2023

- Proficiently led the development of a fintech mobile app in React Native, ensuring the creation of a secure and user-friendly financial platform.
- To improve user experiences and expand the functionality of mobile applications, web portals were created using Next.js.
- For a variety of projects, I engineered dependable and scalable backends utilizing Node.js and Express.js to manage data and transactions.
- Successfully deployed applications and services on platforms such as Digital Ocean and GoDaddy, ensuring high availability and performance.
- Created responsive and dynamic web applications using the MERN stack (MongoDB, Express.js, React, Node.js), as well as interactive features with React Konva.
- Designed and implemented trading journal applications to help traders record and analyze their trading activities efficiently.
- Effectively communicated with clients, providing regular updates and addressing concerns and suggestions to achieve project goals.

### Software Engineer | Techinn360 | Rawalpindi, Pakistan | July 2022 – February 2023

- Took charge of custom web client in React, Bootstrap, React Query, React Data Table (Server-side pagination) and Formik.

- Implemented robust NodeJS, Express web server to communicate with MYSQL database.
- Used Prisma ORM to facilitate data modelling and building SQL queries.

#### **Intern | Techinn360 | Rawalpindi, Pakistan | March 2022 – June 2022**

- As an intern at Techinn360, I worked on the development of a Task Management Project using React and NodeJS, gaining hands-on experience in front and back-end development.

#### **SKILLS**

- **Languages:** JavaScript, TypeScript, HTML, CSS, C++, Python
- **Frameworks/Libraries:** React, React Native, Tailwind CSS, Next.js, Express, React-Konva, Storybook
- **Backend Tech:** Node JS, Firebase, Supabase
- **UI Libraries:** Material-UI, Bootstrap, React-Bootstrap, Ant Design (AntD)
- **Databases:** MySQL, MongoDB
- **Tools:** Git, GitHub, Postman, Prisma, Clockify, Slack, Discord, Asana, Miro, Builder.io

#### **EDUCATION**

**INTERNATIONAL ISLAMIC UNIVERSITY, ISLAMABAD, PAKISTAN**

**Sep 2018 - June 2022**

#### **Bachelor of Science in computer science**

**Courses:** Programming Fundamentals, Object-Oriented Programming, Data Structure & Algorithms, Analysis of Algorithms, Operating Systems, Database management system, Android Development, Web Development, Artificial Intelligence.
