Islamabad, Federal - 44000, Pakistan

OBJECTIVE

Experienced developer with 5 years in mobile application development using React Native and Typescript and seeking a challenging role to apply my expertise in building high-performance iOS and Android apps, and delivering impactful, user-focused solutions.

EXPERIENCE

- **Bitsol Technologies**  Dec 2022 - present
React Native Engineer Islamabad, Pakistan
 - Architect, design, and develop robust and scalable mobile applications using React Native.
 - Collaborate with product managers and cross-functional teams to define project goals, scope, and deliverables.
 - Write structured JavaScript code for developing efficient mobile applications.
 - Optimize app performance and enhance user experience through performance profiling and tuning.
 - Stay abreast of the latest advancements in React Native, mobile app development, and related technologies.
- **DPL**  Feb 2022 - Dec 2022
REACT NATIVE DEVELOPER Islamabad, Pakistan
 - Develop and maintain scalable and performant mobile applications using React Native.
 - Deployed applications to Google Play and Apple App Store using CI/CD, ensuring optimal user experience and app performance.
 - Experienced in gathering software requirements and meeting with clients to develop software that meets their needs and business objectives.
 - Debug and resolve software errors and issues by end-to-end and integration testing.
 - Stayed current with emerging technologies and industry trends to enhance software development practices.
- **Develo IT Solutions**  Apr 2020 - Jan 2022
REACT NATIVE DEVELOPER Islamabad, Pakistan
 - Collaborate with senior developers to develop and maintain mobile applications using React Native.
 - Collaborate with senior developers to build and maintain mobile applications using React Native.
 - Write clean JavaScript code for building robust mobile applications.
 - Assist in designing and implementing user interfaces for mobile apps.
 - Debug software defects and issues using unit testing and fix them.
 - Participate in code reviews and provide constructive feedback.
 - Research and explore new technologies, tools, and frameworks related to mobile app development.
 - Contribute to developing and improving coding standards and best practices.
 - Collaborate with cross-functional teams, including designers and backend developers, to deliver high-quality mobile applications.
 - Stay up-to-date with the latest trends and advancements in React Native and mobile app development.

EDUCATION

- **Air University** Islamabad, Pakistan
BACHELORS IN COMPUTER SCIENCES

PROJECTS

- **Carpal: Roadside Assistance**
Tools: [React Native, Redux, Redux Thunk, Axios, Firebase, sentry,]
 - Developed the **roadside assistance request system** to enable users to request help, track progress, and receive real-time updates.
 - Implemented **location-based services** for accurate user positioning, ensuring prompt and efficient roadside assistance.
 - Created a **notification system**, ensuring users receive timely updates on the status of their assistance requests.
 - Applied **usage analytics** to monitor response times and optimize service efficiency based on user interactions.
- **Mondos: Food Ordering App**
Tools: [React Native, Redux, Redux Toolkit, RTK query, Firebase, Stripe, Reactotron]

- Built a complete **user and order management system**, handling everything from user registration to order fulfillment and review.
- Implemented a robust **order selection and cart system** for browsing, customizing, and managing orders, integrated with checkout.
- Designed a **real-time order tracking interface** with post-order review functionality, enhancing user engagement and feedback.
- Developed a **payment and order completion system** using Stripe, integrated with the review system for a seamless checkout experience.

SKILLS

- **Mobile Development:** React Native, Cross-Platform Apps, iOS, Android
- **Frameworks:** Redux, React Navigation, Native Modules, Redux toolkit, Redux Saga, Reanimated
- **Languages:** JavaScript, TypeScript
- **Tools:** Expo, Fastlane, Xcode, Android Studio, Git, GitHub, GitHub Copilot, Cursor, Loveable, Bolt
- **APIs & Databases:** Firebase, RESTful APIs, GraphQL
- **Deployment:** App Store, Google Play Store

ADDITIONAL INFORMATION

Soft Skills: Strong communication and collaboration abilities, effective problem-solving, adaptability to new technologies, attention to detail, and leadership experience.

Interests: Technology trends, Mobile app development, UX/UI design, Continuous learning.
